January 17, 2019

Dear Member of the SPC,
dear Prof. Bulska,

at first, for you, your colleagues and friends best wishes for 2019!

As you have been informed by our 2nd Circular in December 2018 the preparations for ECASIA2019 are progressing: the registration is open since December 1st, 2018 and the abstract submission will start soon at February 1st, 2019.

With your help we have an attractive list of invited speakers and we are looking forward to an interesting and stimulating scientific program and in addition also to attractive social events that will give us all the possibility to meet in person and exchange experiences.

In addition we encourage you to advertise our conference in your scientific community to gather a highly-motivated audience here to Dresden in September 2019. For that purpose we send you a printed version of an announcement poster for ECASIA2019.

Further we already announce that we hope for your support during the review process of the conference abstracts which will be starting in April 2019. We plan to share this work between the LOC and SPC members, thus it is not really much to do for each of you/us - it is only one page per abstract.

We are looking forward to meet maybe you and a lot of your co-workers here in Dresden at ECASIA2019!

Kind regards

Chairman of ECASIA2019
on behalf of the LOC
